DESCRIPTION

7765 NOVA: The lightest and most streamlined safety trainer on the market, perfect for fast paced environments. Our Xtra-Lite footbed system uses special anti-fatigue technology embedded in the breathable fabric layer to offer comfort for extended periods. ESD "Electrostatic Discharge" to protect from making contact with electric charges and electrostatic hazards. With the highest grade of fibreglass for the toe cap and Kevlar lined midsole, this trainer can be used for many work environments. The breathable yet durable external textile netting allows for flexibility and breathability but protects the shoe from wear or scuffs. The EVA/Rubber outsole offers flexibility and comfort for elite performance while on the job. This boot is fit for athletic performance and can handle the manoeuvrability of jumping in and out of vehicles or on job sites. Contains zero animal products making this the perfect Vegan shoes. Manufactured in accordance with **ISO 9001 Quality Management** and **ISO 14001 Environmental Management** systems.
